Carrier Services

Jurisdiction: FV03
Effective Date: 05/01/2020
Revised Date: 6/2/2020

Product Description

This service will be a point-to-point wavelength product and purchased to support the need for managed optical transport across our shared optical network. This product will dedicate one wavelength for each point-to-point circuit and can be used to connect a Customer designated premise to a Customer Point of Presence (POP) or to interconnect POP locations.
