Local Services Ordering Support Contacts

LSR Ordering Contact and Escalation List

ZiPLY Fiber requests 24 hours before escalating original request. ZiPLY Fiber requests 4 hours between escalation levels unless we miss commitment on return call or actions promised.

When contacting the Local Carrier Services Center using our contact number (888-488-0068), please provide the representative with:

- Valid LSR Purchase Order Number (PON).
- Urgency level of the escalation.

Please allow the representative a reasonable amount of time to resolve the issue.

LNP Requests Rejected Due to PLOC Freeze

When an end user customer account has an active Local Service Provider Freeze (PLOC), LNP Requests will be rejected with the following message: **Local SVC Provider Freeze in Effect, Not Eligible for migration.** If an LNP Request has been rejected for active PLOC, and the CLEC has reason to believe the reject is in error, please Email the LSR Support Team at:

wholesale.lsr.support@ziplyfiber.com with the following information:

- PON, Telephone Number Porting, Retail Confirmation Number for PLOC Freeze Removal, Date End User Customer Contacted Retail Group

The LSR Support Team will review the end user customer account notes and order:

- If request of PLOC Freeze removal request can be confirmed, the LSR Support Team will escalate to the retail group to remove the PLOC freeze. Once complete, a reply will advise the CLEC to resubmit PON.

If request of PLOC Freeze removal request cannot be confirmed, a reply will advise CLEC that the end user customer must contact the retail group to request the removal of the PLOC (Local Service Provider Freeze).

LSR Post-FOC Provisioning Escalation Contact List (Missed Due Dates, Expedites and Out of Service)

Please utilize the following guidelines when submitting escalation e-mails:

- Include the PON in the subject line.
- If an out of service condition exists, include Out of Service or OOS along with the PON in the subject line.
- Out of service escalations will receive status within two (2) hours.

NOTE: Change requests or new installs not worked as expected are not considered an out of service condition, these are missed due dates.

EXPEDITE DUE DATE REQUEST

Earlier due date requests require the submission of a supplement LSR with the Expedite (EXP) field populated once a Firm Order Confirmation has been received from the initial request.

- If returned due date is not acceptable, proceed to 1st level escalation.
- The representative will contact the appropriate provisioning team to inquire if an earlier due date can be accommodated.

NOTE: Ziplly Fiber does not guarantee that a request to expedite a due date can be granted.

***If escalation is not a Missed Due Date, Expedite or Out of Service (Post-FOC), please refer to the LSR Ordering Contact Escalation List on page 4.**
