

Carrier Customer Bulletin

Date of Notice: October 3, 2023
Notice Number: NWFZF-23-0140
Target Audience: Carrier, IXC, Wireless, CLEC, Reseller, ISP
Subject: New ZiPLY Fiber Exchange Path Security Certificate – Bonded Customer Action Required
Effective Date: October 9, 2023

The existing ZiPLY Fiber (NWFAPI) Exchange Path (EP) Security Certificate will expire on October 18, 2023. Action is required for all customers currently utilizing bonded protocols of EDI, UOM and tML for Access (ASR), Local (LSR) and Trouble Administration (TA) transactions, sending to the following endpoint:.

- ep.nwfapi.com; 50.125.6.23 (PRODUCTION)

Effective at 17:00 Pacific Time on October 9, 2023, ZiPLY Fiber will implement the new Security Certificate. Bonded customers must have the new Security Certificate installed after the Effective Date and before the expiration date of the current Security Certificate to avoid connectivity failures on all bonded transactions transmitted to ep.nwfapi.com.

Please contact wholesale.connectivity@ziplyfiber.com to request the new NWFAPI EP Security Certificate prior to the Effective Date.

Note: VFO users are not impacted by this change – no action required.

If you have questions regarding the information provided in this notice, please email wholesale.connectivity@ziplyfiber.com.
