

# Wireless Switched Access - Disconnect 911 Trunks (Type 2C)

# **REQTYP M, ACT D**

### **VFO Product Feature Group D**

| Date     | Revision |   |
|----------|----------|---|
| 5/1/2020 | New      | ı |

**Note:** Wireless Type 2C Trunks establish connections between the customers Mobile Telephone Switching Office (MTSO) and the 9-1-1 Selective Router Tandem.

Valid ICSC Codes Include: FV03

### 001 - Access Service Request (ASR)

#### **Administrative Section**

| Administr | diffinistrative Section               |  |  |  |
|-----------|---------------------------------------|--|--|--|
| Field     | Description                           | Example  |  |  |
| CCNA      | Customer Carrier Name Abbreviation    | XXX (Identifies the IAC Code of the Carrier)                 |  |  |
| PON       | Purchase Order Number                 | Note: This Field is Controlled by Customer                   |  |  |
| VER       | Version Identification                | Note: This Field is Controlled by Customer                   |  |  |
| ICSC      | Interexchange Customer Service Center | FV03   |  |  |
| ACTI      | Activity Indicator                    | D for partial disconnect of trunk group                      |  |  |
|           |                                       | E for full disconnect of trunk group with re-routing         |  |  |
|           |                                       | F for full disconnect of trunk group without routing         |  |  |
| DDD       | Desired Due Date                      | Standard Interval  |  |  |
| REQTYP    | Requisition Type and Status           | M  |  |  |
| ACT       | Activity                              | D=Disconnect   |  |  |
| LATA      | Local Access Transport Area           | Numeric  |  |  |
| RTR       | Response Type Requested               | F, N, or S   |  |  |
| AFO       | Additional Forms                      | Populate with a Y if more than 24 trunks being disconnected. |  |  |
| TQ        | Translation Questionnaire Request     | Required entry only if ACTI = E or F                         |  |  |
|           |                                       | W=Wireless Translations                                      |  |  |
|           |                                       | X=Wireless Translations and Code Translation Routing         |  |  |
|           |                                       |  |  |  |
| UNIT      | Unit Identification                   | С  |  |  |
| LTP       | Local Transport                       | Required - See ASOG for Valid entries                        |  |  |
| CKR       | Customer Circuit Reference            | Customer Circuit ID  |  |  |
| QTY       | Quantity                              | number of trunks being disconnected                          |  |  |
| BAN       | Billing Account Number                | Entry of "E" for existing BAN                                |  |  |
| ACTL      | Access Customer Terminal Location     | Trunk ACTL CLLI  |  |  |
| RPON      | Related Purchase Order Number         | If necessary   |  |  |

### **Bill Information**

| Dill Illioi mation |                                   |   |
|--------------------|-----------------------------------|---|
| Field              | Description                       | Example   |
| BILLNM             | Billing Name                      | Bill name for ACNA  |
| SBILLNM            | Secondary Billing Name            | optional  |
| ACNA               | Access Customer Name Abbreviation | alpha   |
| FUSF               | Federal Universal Service Fee     | E or N  Note: Refer to the ASOG FUSF field Notes for Assessed or Exempted rules |
| TE                 | Tax Exemption                     | alpha   |
| STREET (Bill)      | Street Address (BILL)             | # and street name assigned by US Postal Service                                 |
| FLOOR (Bill)       | Floor (BILL)                      | optional  |
| ROOM (Bill)        | Room (BILL)                       | optional  |
| CITY (Bill)        | City (BILL)                       | city name for street address  |
| STATE (Bill)       | State/Province (BILL)             | alpha   |
| ZIP CODE<br>(Bill) | Zip Code (BILL)                   | numeric   |
| BILLCON            | Billing Contact                   | employee from ACNA that can be contacted for billing issues                     |
| TEL NO (Bill)      | Telephone Number (BILL)           | numerics  |
|                    |                                   |   |

### **Contact Information**

| F1-1-1           | December 1                        | Farmeria                                  |
|------------------|-----------------------------------|---|
| Field            | Description                       | Example                                   |
| INIT             | Initiator                         | customer's employee submitting ASR        |
| TEL NO (INIT)    | Telephone Number (Initiator)      | numerics                                  |
| INIT FAX NO      | Initiator Facsimile Number        | optional                                  |
| INIT EMAIL       | Initiator Electronic Mail Address | optional                                  |
| DSGCON           | Design/Engineering Contact        | name of customer's designer               |
| TEL NO (DSG CON) | Telephone Number (Design Contact) | numerics                                  |
| DSG FAX NO       | Design Facsimile Number           | optional                                  |
| STREET (DSG CON) | Street Address (Design Contact)   | customer designer's mailing address       |
|                  |                                   | street                                    |
| FLOOR (DSG CON)  | Floor (Design Contact)            | optional                                  |
| ROOM (DSG CON)   | Room (Design Contact)             | optional                                  |
| CITY (DSG CON)   | City (Design Contact)             | customer designer's mailing address city  |
| STATE (DSG CON)  | State/Province (Design Contact)   | customer designer's mailing address state |
| ZIP CODE (DSG    | Zip Code (Design Contact)         | numeric                                   |
| CON)             |                                   |   |
| DSG EMAIL        | Design Electronic Mail Address    | optional                                  |
| IMPCON           | Implementation Contact            | customer's testing contact                |
| TEL NO (IMP CON) | Telephone Number (Implementation  | numeric                                   |
|                  | Contact)                          |   |

### 004 - Trunking

### **Service Detail**

| Field  | Description                                     | Example  |
|--------|---|--|
| NC     | Network Channel Code                            | NC of existing trunk   |
| NCI    | Network Channel Interface Code                  | NCI of existing trunk See following Note: Note: Customers must refer to iconectiv for accurate NC/NCI/SECNCI combinations or refer to the NC/NCI/SECNCI job aid found at https://wholesale.ziplyfiber.com/wholesale/access-services/nc-nci-secnci-job-aids |
| SECLOC | Secondary Location                              | Selective Router Tandem CLLI   |
| RECCKT | Related Exchange Company Circuit Identification | DS1 to be disconnected if trunks and T1s to be disconnected  |
| TTT    | Transport Trunk Termination Code                | A=Mobile to Land   |
| QACI   | Quantity Additional Circuit Information         | Only required if more than 24 trunks requested   |
| TRFTYP | Traffic Type                                    | E9=9-1-1   |
| NC1    | Network Channel Code (T1)                       | See following Note: Note: Customers must refer to iconectiv for accurate NC/NCI/SECNCI combinations or refer to the NC/NCI/SECNCI job aid found at https://wholesale.ziplyfiber.com/wholesale/access-services/nc-nci-secnci-job-aids                       |
| TCIC   | Trunk Circuit Identification Code               | Required if ordering SS7 trunks  |
| PSAP   | Public Safety Answering Point                   | County name  |
| ESN    | Emergency Service Number                        | 00001  |
| CSL    | Customer Switch Location                        | If disconnecting SS7 connectivity, place SS7 switch CLLI here  |
| CST    | Customer Switch Type                            | If CSL is populated, this field is required  |
| CSPC   | Customer Signaling Point Code                   | If disconnecting SS7 this field is required  |

## 019 - Translation Questionnaire (TQ)

#### **Common Section**

| Common Section                       |   |  |
|--------------------------------------|---|--|
| Field                                | Description   | Example  |
| TECH CON                             | Customer Technical Contact (Translation)            | customer's Translations tester                                   |
| TEL NO (Tech Contact<br>Translation) | Technical Contact Telephone<br>Number (Translation) | numeric  |
| TG ACT                               | Trunk Group Activity                                | D=Disconnect   |
| TGTYP                                | Trunk Group Type                                    | A=PH (Primary Route) H=AF (Secondary route) E=Direct Final route |
| TSC                                  | Two Six Code  | The TSC that traffic should overflow to if any                   |
| CLADE                                | Clave Master  | ۸  |
| GLARE                                | Glare Master  | A  |
| DIR                                  | Directionality                                      | 10   |
| FACT                                 | Feature Activity (ALT REF)                          | A  |
| ALT REF                              | Alternate Routing Trunk Group<br>Reference          | TSC which traffic will overflow to if needed                     |
| REMARKS                              | Remarks   | Explain disconnect of trunks and reroute of traffic.             |
|                                      |   |  |

### 007 - Additional Circuit Information (ACI)

### **Circuit Details**

| Field          | Description                                     | Example   |
|----------------|---|---|
| REF NUM<br>(1) | Reference Number                                | For every DS1 being disconnected, an ACI page must accompany the request. |
| RECCKT         | Related Exchange Company Circuit Identification | DS1 to be disconnected if trunks and T1s to be disconnected               |
|                |   |   |
| HBAN           | High Capacity Channel Billing Account Number    | E   |
| TRN            | Trunk Number                                    | Prohibited if TCIC is populated   |
| TCIC           | Trunk Circuit Identification Code               | Required if SS7 trunks  |
|                |   |   |
| CKR            | Customer Circuit Reference                      | Customer circuit ID   |

Disclaimer: This is an ASR Sample. There are other ASOG fields not included in this documentation. Please refer to ASOG for all field definitions. You may also reference our Access Custom Business rules.
