

Why fiber internet?

While once considered a luxury, we now know that high-speed broadband is a prerequisite for modern living. That's why we're working hard to bring fast, reliable fiber internet to communities across the Northwest.

Why fiber internet is better than cable

Speed

Save time & get more done online with super-fast symmetrical uploads & downloads

Reliability

Connect multiple devices with less lag, even during peak times

Here's what you can do with fast, reliable fiber internet

Work remotely with seamless video calls and equally fast uploads & downloads

Stream all the best shows, movies, music, audiobooks and more

Connect with loved ones on easy, inexpensive video calls with no frozen screens

Learn from the comfort of home with no data caps

Game all day with low latency, less packet loss and zero lag

Access telemedicine healthcare from home
