

MiCollab Desktop Client Features – Handoff Call

Introduction This quick reference guide provides instructions on how to use the MiCollab Desktop client to handoff an active call to another device.

Handoff to Another Device To handoff your active call to another device, perform the following procedure within the Call window.

Note: Device must be configured on MiCollab.

Step	Action
1	<p>Click Handoff</p> 
2	<p>In the Handoff to dialog box, click appropriate device</p>

MiCollab Desktop Client Features – Handoff Call, Continued

Handoff to
Another Device,
continued

Step	Action
3	<p>The Handoff complete message appears</p>  <p>The screenshot shows the MiCollab Desktop Client interface for a call with Julie Enriquez2. A blue banner with the text 'Handoff complete' is highlighted with a red border. The interface includes a search bar, a 'Minimize Call' button, and a bottom toolbar with icons for Dialpad, Conference, Transfer, Handoff, Hold, and Video. The status bar at the bottom indicates 'SoftPhone (150*6)'.</p>
4	<p>The call remains displayed in the MiCollab Desktop client after transferring devices.</p>  <p>The screenshot shows the MiCollab Desktop Client interface for the same call. The call details are still visible, including the contact name 'Julie Enriquez2' and a large circular icon with the initials 'JE'. The bottom toolbar and status bar remain the same as in the previous screenshot.</p>
